OBSON'S PATENT LIGHT and HEAT REFLECTING STOVE GRATE.—The great superiority of this unique Stove Grate over every other, is now so fully proved by the continued increasing demand in England. that the patentiese have appointed HENRY I. IBBOTSON, of New-York, their Agent for the United States (where the said Grate is also patented). By the use of this Grate there is a great saving of fuel, and all the light and heat are so completely thrown into the room as to afford a degree of other fulness and warmth which twice the smount of fuel would fail to produce in any ordinary fire-place. Said Stove Grates can be had either perfectly plain ar with decorations; and may be seen now in operation at the office of the Agent, No. 218 Pearl-st., between Madealane and John-st.

CAUTION to HARDWARE DEALERS.—We take this method of cautioning our friends and the hardware dealers generally, against certain Files manufactured in America, and stamped "Robotson"—sid lies are made by persons in no way connected with our house, and the names being like ours, dealers should be careful that they are not deceived. Our FILES have stamped upon each tang our own firm, "IBBOTSON, BROTHERS & CO."—also our corporate mark. "Globe," as formerly. It may be advisable further to state, that our best Cast Steel Royal Improved Files (universally issown by the old stamp, "Globe") are well known as better adapted for Engmeers' and Machinists' purposes than any now in use in the United States.

BBOTSON, BROTHERS & CO., Sheffield, Engiand.

HENRY J. IBBOTSON, Agent, Office No. 218 Pearl-st., New-York.
